DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Considering claims 1, 6 and 12, the prior art made of record fails to disclose or suggest a device or method having a continuously interrupted advancement and then a partial retreat of a pressing jaw for the purpose of aligning a test specimen. This would not have been obvious to one of ordinary skill in the art because the diameter determination was not previously conducted in the same manner as taught by this application. Furthermore, the prior art made of record fails to disclose or suggest a vibrating guide segment upon which the test specimen is placed and a moving jaw which advances the specimen whilst it is vibrating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
